MESSAGE FROM THE DIRECTOR

Excitement for 2022

By Brian Nesvik, Game and Fish Director

Dear Hunters,

I recently saw a debate about whether the opening day of hunting season was more exciting than Christmas morning. If you're anything like me — it's not just the first day that is enthralling. It's every stalk, every bugle, everytime my finger inches toward the trigger. The passion never quits, and I'm looking forward to a great 2022 season.

As the director of the Wyoming Game and Fish Department and a fellow hunter, I want to say thank you. Hunting is conservation in its most historic and pure form. Your deep appreciation for Wyoming's wild animals and wild places is reflected in the tremendous diversity and abundance of wildlife we have in our state — both hunted and not hunted. Your support is incredibly important to the department, too. The majority of our funding comes from sportspeople.

As conservationists, understanding these rules and holding yourself to the highest level of hunting ethics and safety benefits wildlife and all who enjoy it. You are the model for future generations of hunters who will fill your boot prints on the trails. These Antelope, Deer and Elk Hunting Regulations are meant to help you be more knowledgeable and confident on Wyoming's laws and regulations while you work to fill the freezer.

It's in the best interest of wildlife and hunters that we all maintain vigilance in taking good care of our diverse habitats. When you're on the ground, I urge you to remain true to the land ethic all hunters expect of each other. Use ATVs responsibly, be careful with campfires and respect private property rights.

And as far as personal safety goes, carry plenty of water and keep an eye on the sky for quickly-changing weather conditions. Make it a goal for Wyoming Search and Rescue teams to have a boring fall.

I'm looking forward to the season, and I hope you are, too. Take in the land and marvel in the wonder that is the Wyoming outdoors. I wish you the best of luck in your harvest pursuits. And last but not least, don't forget to think about our young aspiring hunters by giving them new opportunities to experience the things that keep seasoned hunters coming back season after season. Inspire a kid; it's for life!

2022 IMPORTANT HUNTING INFORMATION

Disclaimer. The following sections are a condensed summary of applicable wildlife laws and other important information. This summary is in no way intended to alter the content or statutory intent of those laws. If you have any questions regarding the precise language, you can view a copy of the State Statutes (Title 23) and Wyoming Game and Fish Commission (Commission) Regulations, available at the Cheyenne Headquarters, Department Regional Offices, the Department website or consult the following websites: <https://sos.wy.state.wy.us> or <https://wyoleg.gov>.

Access on Lands Enrolled in the Department's Access Yes Walk-In Areas or Hunter Management Areas.

Access to private lands enrolled in the Access Yes Walk-In or Hunter Management Program is granted only for the take of wildlife species and for the time periods specified in Department publications. Travel by motorized vehicle is prohibited, except as otherwise stated. Hunters wishing to use enrolled private lands for any other wildlife species, activity or time period must obtain permission from the landowner or person in charge of the property. Department publications or signs shall serve as official regulations of the Commission and may advise of additional restrictions. The landowner or person in charge of the property may grant permission for motorized vehicle travel contrary to that specified by Department signs or publications.

Access Yes Program. The Access Yes Program was established to help address the difficulties of finding places to hunt and fish. Sportspeople can voluntarily donate any whole dollar amount to Access Yes when they purchase or apply for a license. Contributions are used to secure additional public hunting and fishing access on private lands

and inaccessible public lands. Donating helps support the program, but does not provide or imply access to all private or inaccessible public lands in Wyoming.

Age Restrictions; Big or Trophy Game. The minimum age to take any big or trophy game animal is eleven (11) years old, if that person will be twelve (12) years old by the end of that calendar year. Youths under fourteen (14) years of age shall at all times be accompanied by an adult who possesses and can exhibit a hunter safety certificate, or who has been issued a Wyoming big game hunting license within the last five (5) years. If the accompanying adult is not the youth's parent or guardian, the youth shall have in their possession a permission slip signed by their parent or guardian allowing them to hunt under supervision. Each accompanying adult shall supervise not more than one (1) hunter under fourteen (14) years of age.

Archery Equipment. Archery equipment is legal to take game animals. When hunting antelope, bighorn sheep, black bear, deer, mountain goat, mountain lion, or gray wolf where designated as a trophy game animal, an archery hunter shall use a longbow, recurve bow or compound bow of not less than forty (40) pounds draw weight. When hunting elk or moose, an archery hunter shall use a longbow, recurve bow or compound bow of not less than fifty (50) pounds draw weight. A crossbow hunter shall use a crossbow having a peak draw weight of at least ninety (90) pounds and a bolt of at least sixteen (16) inches in length. The broadhead used on arrows or bolts shall not pass through a seven-eighths (7/8) inch solid ring when fully expanded.

Archery Licenses and Special Archery Seasons. No person shall hunt big game or trophy game animals

with archery equipment during a special archery hunting season without first obtaining an archery license and the appropriate hunting license. No person holding an archery license shall take big game or trophy game animals during a special archery hunting season or limited quota archery season by the use of any type of firearm. Upon request by a game warden or other Wyoming law enforcement officer, a person who has taken a big or trophy game animal during a special archery hunting season or limited quota archery only hunting season shall allow testing of the animal's tissue for confirmation of compliance with this section.

Artificial Light for Hunting Prohibited; Exception.

No person shall take any wildlife with the aid of or by using any artificial light or lighting device except that predators may be taken with the aid of an artificial light or lighting device by:

- (i) A public officer authorized to and conducting predator control;
- (ii) A landowner, resident manager or person with the landowner's or a resident manager's written permission to take predators, on land under the landowner's control for the protection of their property.

It is prima facie evidence of a violation if a person uses an artificial light in an area that may be inhabited by wildlife while having in their possession and control any device for taking wildlife. This shall not prohibit the hunting on foot of raccoon with the aid of a handlight, provided the hunter is accompanied by a raccoon hunting dog and, if hunting on private land(s), has the written permission of the landowner or their agent.

CHRONIC WASTING DISEASE INFORMATION

Chronic wasting disease (CWD) is a fatal disease of the central nervous system in mule deer, white-tailed deer, elk and moose. Special regulations were adopted by the Department to decrease the spread of the disease. Details about CWD, where it exists in Wyoming and testing for the disease are provided on the Department website. For more information on CWD or to check your CWD sample results, please visit: <https://wgfd.wyo.gov/Wildlife-in-Wyoming/More-Wildlife/Wildlife-Disease/CWD-in-Wyoming-Wildlife>. The Department will not notify hunters directly with CWD test results. For hunters wanting to collect lymph nodes from their harvested deer, elk or moose for CWD testing can watch a video on how to do so at: Wyoming Game and Fish Department - Lymph node removal video

Most animals infected with CWD show no clinical signs early on, but after a year of being infected with the disease, animals will begin to show weight loss, reluctance to move, excessive salivation, droopy ears, increased drinking and urinating, lethargy and eventually death. Not all animals will show the typical signs of CWD. The majority of all CWD positive animals harvested appear completely normal. The only way to know whether your harvested animal has CWD is to have it tested.

There are several ways to get your harvested animal tested:

- Game check station – someone is normally available to sample your harvested animal for CWD.
- WGFD regional office – you may have to leave the head if personnel are not immediately available.
- Results from WGFD surveillance are usually available online within 3 weeks.
- If you want results within 10 working days, contact the Wyoming State Veterinary Lab in Laramie at (307) 766-9925 (\$30 fee).
- Quarter and freeze your animal until test results are returned to save on meat processing costs if your animal is positive.

To date, there have been no cases of CWD in humans and no direct proof that humans can get CWD. However, public health officials recommend that CWD positive animals not be consumed. Some basic precautions that hunters can

take to reduce their risk to CWD include: do not consume any animal that tests positive for CWD; do not harvest or consume any animal that appears sick; wear rubber or latex gloves when field dressing carcasses; minimize handling of brain, eyes, lymph nodes, spleen or spinal cord; and, wash your hands and utensils thoroughly after field dressing or processing game meat. Knives and other butchering equipment can be disinfected by soaking in 40% household bleach for 5 minutes (may rust some equipment).

Transportation and Disposal of Deer, Elk and Moose Taken within Wyoming – Chronic Wasting Disease (CWD) Provisions.

(a) Deer, elk and moose taken in Wyoming may be transported within Wyoming to a camp, a private residence for processing, a taxidermist, a processor, or a CWD sample collection site in Wyoming, provided the head and all portions of the spinal column remain at the site of the kill or such parts are disposed of in any approved landfill or approved incinerator in Wyoming.

(b) Except as provided in subsection (a) of this section, only the following parts of any deer, elk or moose taken in Wyoming may be transported in Wyoming: edible portions with no part of the spinal column or head attached; cleaned hide without the head; skull or skull plate or antlers that have been cleaned of all meat and brain tissue; teeth; or, finished taxidermy mounts.

(c) Only the following parts of any deer, elk or moose taken in Wyoming may be transported to other states, provinces or countries: edible portions with no part of the spinal column or head; cleaned hide without the head; skull or skull plate or antlers that have been cleaned of all meat and brain tissue; teeth; or finished taxidermy mounts. Whole deer, elk and moose carcasses shall not be transported out of Wyoming.

(d) Nothing in this section shall apply to the transportation or disposal of deer, elk and moose taken by any governmental agency or educational institution.

Importation of Deer, Elk or Moose Taken From Outside of Wyoming

Bear Pepper Spray Required When Hunting in Grand Teton National Park (Elk Hunt Areas 75 and 79). All persons hunting elk in Grand Teton National Park shall carry and have readily accessible bear pepper spray.

Carcass Coupons; Dating and Display. When any big game animal, trophy game animal or wild turkey is killed under a license, or sandhill crane is killed under a limited quota sandhill crane permit, **the licensee shall detach, sign and date the proper carcass coupon and attach the coupon to the carcass in a readily visible manner before leaving the site of the kill. When dating a carcass coupon, the entire day and month of the kill shall be completely cut out and removed.** (See page 6.) The carcass coupon shall remain on the game animal, wild turkey or sandhill crane carcass at all times until the meat undergoes processing, or on the trophy game animal hide until it reaches the hunter's home or a taxidermist, except that during transportation of the carcass or hide, **the validated carcass coupon may be removed to prevent its loss.** If the carcass coupon is removed for transportation

(a) Deer, elk or moose taken from within any other state, province or country may only be imported into Wyoming if carcasses are transported directly to a private residence for processing, to a taxidermist, to a processor or to a CWD sample collection site provided the head and all portions of the spinal column are disposed of in an approved landfill or incinerator.

Mandatory CWD Sample Submission

The Department may mandate hunters submit CWD samples from harvested deer, elk and moose from designated hunt areas within Wyoming to evaluate testing, monitoring and management actions.

If the Department mandates hunters submit CWD samples, public notice shall be given through the Department website, publications and news releases.

(a) Mandatory submission of CWD samples from harvested deer, elk and moose may be established annually by the Department when necessary to meet its CWD testing and monitoring requirements or to implement and evaluate management actions related to CWD. Mandatory CWD sample submission of deer, elk and moose shall end when the Department achieves sampling goals for designated hunt areas, as stipulated by Department personnel prior to enacting any mandatory CWD sample submission. The Department shall determine the type, time frame and method of CWD sampling required for submission.

(b) When the Department mandates hunters submit CWD samples, public notice shall be given through posting of mandatory submission requirements in Department offices and designated license selling agents, electronic or traditional mailings to known license holders (and other sportspersons) and through the Department website, publications and news releases.

(c) It shall be a violation of Commission regulation for a hunter to fail to submit mandated CWD samples in accordance with this section

For 2022, hunters are required to submit CWD samples from deer harvested in hunt areas 59, 60, 64, 65, 157 and 171. See Pages 30 and 34.

The maximum bag limit is one (1) big or trophy game animal per each valid license held, and in accordance with age, sex, species and antler or horn development limitations as specified by Commission regulation.

Baiting of Big Game Animals Prohibited; Exception for Qualified Disabled Persons. No person shall take any big game animal over, or by the use of bait, except as follows: any legally blind person, person confined to a wheelchair, person hunting with a permit issued pursuant to Wyoming Statute § 23-3-304 (d) (iv) or any person hunting with a license issued pursuant to Wyoming Statute § 23-1-705 (j) may place a bait for big game or take a big game animal by the use of bait.

of the carcass or hide, it must be completely filled out and in the possession of the person accompanying the carcass or hide at all times. While quarters or pieces of an animal are being packed from the field, the carcass coupon shall remain with the person transporting the animal.

Check Stations. Every hunter, angler or trapper entering or leaving areas for which check stations have been established shall stop and report at the check station if the check station is on the hunter's, angler's or trapper's route to and from the hunting or fishing area. This requirement applies even if the person does not have wildlife in possession. Game and fish licensees shall produce their licenses, permits or stamps as required by regulation for any game animals, game birds, fish or furbearing animals in their possession for inspection upon request by any authorized department representative.

Closed Areas. All areas within the state of Wyoming not opened by specific order of the Commission shall be closed to the taking of game animals, furbearing animals and game birds.

Common violations GENDER EVIDENCE

Many Wyoming hunting licenses only allow the taking of a specific sex of animal. There are also season dates in some hunt areas when only a specific sex of animal can be taken. Harvest Survey. Each year a request to participate in the harvest survey is sent to a sample of hunters. Your time and assistance are much appreciated.

Hunter Safety/Mentor Program; Exemption. Except as otherwise provided, no person born on or after January 1, 1966, may take wildlife by the use of firearms on land other than that of their own family, unless that person can demonstrate they have obtained a certificate of competency and safety in the use and handling of firearms. Information about human safety and proper storage of food and other attractants in occupied grizzly habitat is available from the Cheyenne Headquarters, Department Regional Offices, U.S. Forest Service Offices and the Department website. Regulations concerning food/carcass storage in occupied grizzly habitat can be obtained from the U.S. Forest Service. Report all conflicts with grizzly bears to the nearest Department Regional Office.

Unless there is an express agreement between the processing plant and the person providing otherwise, any meat from a big game animal or game bird left at a meat processing plant for more than forty-five (45) days is prima facie evidence of a violation if written notice of the expiration of time has been attempted by the processing plant

BE BEAR AWARE

Game retrieval and handling

- **Immediately remove** carcasses from the field. The longer game is in the field, at camp, or in a vehicle, the more likely it is to be discovered.
- Separate the carcass from the gut pile with **as much distance as possible** if you must leave meat in the field for any time.
- Ideally leave the gut pile in the field **far away** from camps, roads, trails.
- If an animal is harvested by a camp, road or trail, move the gut pile or parts **½ mile away** or to a landfill.
- **Quarter and hang** the carcass in a tree or game pole **10 to 15 feet** from the ground and **4 feet** from the tree trunk or supporting branches.
- If you must leave the carcass on the ground, **place it in plain view** so you can see if a bear is present or if it has been disturbed when you return. Placing large items such as branches or a jacket on the carcass so you can tell from a safe distance if a bear has disturbed your carcass.
- When returning to a carcass **stop and view** the area from a distance with binoculars. Approach the carcass from **upwind and make sufficient noise** to alert any bears of your presence. Just because you don't see a bear doesn't mean there isn't one in the area.
- When retrieving meat go with your hunting partners and if possible **approach on horseback**.
- If you detect disturbance from a distance or if the **carcass has been buried**, a bear has probably been to the carcass or may be bedded nearby.
- **Never attempt to scare** a bear off of a carcass it has claimed.
- **Have a plan** on how to recover an animal before you harvest one and use extra caution if harvesting an animal late in the day.

What to do if you see an aggressive /defensive bear at close range

- Try to remain calm, slowly back out of the area, and have a defense ready.
- **Never run away** from the bear.

- Do not challenge the bear with aggressive body language, **direct eye contact** or shouting.
- If the bear begins to approach, stand your ground and **use bear spray** if available.
- If a bear makes contact or is about to make contact, drop and cover by lying flat on your stomach inter-lacing your fingers and placing them on the back of your neck. Do not fight back.
- Once the bear feels the **threat is neutralized** it will usually stop attacking.
- Make certain the **bear has left** the area before you retreat or move.

How and when to use bear spray

- **Bear spray is an effective deterrent** that is designed to deter aggressive bear behavior.
- Studies have shown that bear spray is **more effective than firearms** at reducing your chances of injury.
- Make sure that you are carrying an **EPA registered** Bear Spray and not another form of self protection pepper spray.
- Bear spray is to be used on a **charging bear** or in an aggressive encounter.
- It sprays **25-30 feet** as it creates a **4-foot cloud**.
- Each member of a party should carry spray.
- Bear spray must be **carried where it is readily accessible**.

If a bear comes into your camp

- Remain calm and **do not panic**. Bears generally avoid people and they are probably attracted to odors of food.
- **Ready your bear spray** or firearm for use.
- **Do not** approach the bear.
- Try to **scare the bear** away by yelling, shouting, or making other loud noises.
- If the bear **does not** get a food reward they will usually leave.
- If a bear tries getting into your tent **fight back** and use your personal defense.
